Dear ~~Jonathan and Chris,~~ *Jonathan + Chris,*

I am writing to thank you both for all your hard work and willingness to work with the Center for the Arts this past year to create, publish and maintain our new website. We found your pricing to be reasonable and your customer service impeccable. Your efforts with the staff at the Center to come up with an effective solution to our unique needs as an event driven non-profit organization made this project a challenge, but you always came up with the solution on how to accomplish our goals. Cavendo went above and beyond the original proposal by donating many hours of in-kind work to the Center to achieve our requirements during the website building period of time.

You continue to advise us as new technology features become available, making sure we have a cutting edge community presence and the website operates flawlessly. Your willingness to work with the Center in such a sacrificial manner proves your true understanding of how 'sowing' into a community really works!

We congratulate you and Cavendo Corp. on being nominated for the 2007 Mayor's Small Business Award and we heartily endorse your nomination.

Sincerely,

Marci Settle

Marci Settle, Operations Director

Jonathan + Chris, We couldn't have done it without you!
