To Jonathan Arehart and Chris LeCompte:

I could not be happier with the job you did designing my new website. When I first contacted you last fall my office lacked a functioning website, and it was a bit embarrassing. After our first meeting, it became clear to me that you understood what we were looking for and how best to get us there.

My staff was impressed at how willing you were to answer any and all of their questions in a timely and friendly manner. Your professionalism has resulted in a fine website, of which we can all be proud.

Thank you for you invaluable service and best of luck as you continue to grow Cavendo Corporation.

Sincerely,
