Re: Loveless Porter Architects Website

Dear Jonathan and Chris:

We are delighted with our new website. Your persistence and hard work was appreciated as we worked through the design in an effort to get a product we are proud of. We feel the site is easy to navigate and provides adequate information about our firm and projects. Although the site turned out to be larger than we initially intended, you were very patient and helpful in assisting us in getting an end product that we are very pleased with.

We feel confident that as we update our projects you will continue to provide the service and professionalism we have come to expect from Cavendo.

Thank you again for your assistance, tolerance, and excellent service.

Sincerely,

Sean M. Porter, RA
